Vi Orthopaedic Hire Kits

Hire Kit Procedure:

1. Clinic contacts Vi and discusses case and selects Hire Kit required for surgery
2. Vi will give ETA on Hire Kit arrival/availability
3. Hire Kit is photographed and packed with kit content list and sent via StarTrack to clinic for next day delivery.
4. Hire Kit is invoiced to clinic as Hire Fee + Postage (return)
5. Hire Kit arrives at clinic
 - Nursing or Veterinary staff unpack kit and check contents against checklist
 - Packaging material is removed from kit
 - Kit is sterilised at clinic
 - Kit is used in surgery
 - Kit is cleaned by nursing staff
 - Kit is checked by nursing staff and check list is completed to identify which implants have been used.
 - Kit is re-packaged for return to Vi
6. Vi are contacted by clinic and return postage is organised
7. Clinic receive Connote email from StarTrack
 - Print out Connote and stick to package for return pick up
8. StarTrack driver collects Kit from clinic
9. Kit returned to Vi
 - Vi Team check kit for cleanliness and implants used
 - Invoice out implants used to clinic
10. Kit is re-packed by Vi team
